

New showroom looks Ship Shape

Local company Ship Shape Bedding have recently opened a new showroom in Hoveton. Their range of bespoke mattresses and upholstery for boats, caravans and motorhomes makes this the perfect location right in the heart of the Broads.

The largest marine and leisure upholstery showroom in the UK, it's no surprise that the company continues to expand and adapt to meet customers' changing needs.

"We always strive to offer new solutions to life on the water" explains owner Matt Nudd, "our craftsmen and women are traditional, skilled upholsterers, doing everything by hand, and we combine that traditional quality with modern designs and features".

Ship Shape is run by husband and wife team Matt and Danielle Nudd.

"It's important to us to spend time with our customers, to understand their needs and create the perfect product for them. Our new showroom has really helped us build on customer relationships, and gives people the chance to try before they buy" says Danielle.

So whether you're looking for some new deck cushions, or a replacement cabin mattress, Ship Shape have your needs covered.

The kettle is always on and there are plenty of comfy seats, so pop in and meet the team.
